

PEACE OF MIND... ONLY \$4 PER MONTH

Remote Monitoring - Now Available from Kohley's!

Will call or auto fill customers have a choice to add remote monitoring to their service to ensure 100% accuracy with no outages – Guaranteed! Kohley's is committed to offering solutions that give you peace of mind for home heating.

A WORRY FREE ADD-ON

By choosing to add remote monitoring to your existing plan, you never have to worry about running out of propane. You are not obligated to add or renew this service. Remote monitoring is an add-on option to all current accounts that are in good standing.

WORKS WITH EXISTING PLANS

There is no installation fee and remote monitoring works with existing plan and rates (auto fill or will call). At only \$4 per month, this service is billed annually at \$48 (account must be current). Remote monitoring is ideal for the elderly and those confined indoors, as well as snowbirds.

With Remote Monitoring	Without Remote Monitoring
» Guarantees NO disruption of service	» Risk of running out propane » May experience a delay in delivery
» Creates a direct link between your tank and Kohley's, for accurate daily reports/monitoring	» Currently based on calculations and computer estimates to determine energy usage projections
» 100% Accurate tank monitoring	» Projected readings, not real time levels
» No delays or rush fees with propane delivery	» Rush fees applicable when orders come in at levels of 20% or below
» Actual readings versus projected	» Less accurate tank projections
» Worry free when leaving your house unattended in cold weather	» No guarantee of service when leaving your house unattended
