

THE SMART WATER CHLORINE-FREE SYSTEM

Whole-House Filtration System

The Smart Water Chlorine-Free System is custom-designed to remove chlorine and other chemicals from your home's plumbing system, thus providing clean, filtered water from every water source. Despite chlorine's effectiveness and ability to disinfect, the obvious problems such as an unpleasant taste and smell cannot be ignored.

This chemical-free filtration system passes incoming water through a carbon filtration media (activated coconut carbon) that not only absorbs the taste and odor associated with chlorine, but also removes contaminants comparable to chlorine.

BENEFITS OF WHOLE-HOUSE CHLORINE FILTRATION SYSTEM

- No more iron and sulfur smells
- Cleaner fixtures, sinks, and tubs
- Cleaner, brighter, stain-free laundry
- Longer appliance and plumbing life
- Cleaner air to breathe (elimination of chlorine vapors)

SMART AND EFFICIENT CHEMICAL-FREE FILTER

- Corrosion resistant Noryl control with lead-free components
- Corrosion proof tanks insulated to keep floors dry
- Full flow 1" porting
- No electricity needed

SMART WATER CHLORINE-FREE SYSTEM WARRANTY*

- 5 years on control valve
- 2 years on service

Call Kohley's to schedule a free water analysis and learn if the Smart Water Chlorine-Free system is the right solution for your home.

* This warranty applies to the original owner from date of installation and guarantees these products to be free of defects in materials and workmanship. The service life of the filter is dependent on the feed water quality. Recommended service every 2-3 years. Contact manufacturer for full warranty details.
